Tonight * 6:00 pm * Fellowship Hall

“Stories are the most universal form of human communication. Our brains are actually hardwired to take in information through stories.” And so it should come as no surprise to us that 43% of the Bible is presented in story form. Join us as we learn some fascinating things about the way design patterns, plots, character development, and settings are used in the Bible. Our study will include videos produced by The Bible Project, a time of discussion, application and challenge. The goal is to equip us with a greater appreciation for the beautiful way God is at work, help enhance our reading of the Scriptures, and allow us see how each part connects to the unified message.
